

“Florida’s HEROs: Healthy Environments for Reducing Obesity”
Early Care and Education (ECE) Recognition Program

AFFIDAVIT

I understand that Florida’s HEROs Early Care and Education (ECE) Recognition Program works to encourage programs to meet best practices for promoting a healthy weight among children ages 0 to 5. These best practices include serving healthy food and beverages, incorporating physical activity throughout the day, limiting screen time and supporting breastfeeding. I understand that the Florida’s HEROs recognition program encourages early care and education programs to take proactive, voluntary steps to improve their program practices and policies to create healthy change for the children and families they serve.

I understand that participation is only open to early care and education programs serving children from birth through five that are legally operating through the Florida Department of Children and Families or a local licensing authority.

I understand that if my program is recognized as a *Florida’s HEROs* site that our program must complete the provider survey and may be required to complete an interview before incentives can be released. I understand that recognized programs will receive a certificate and marketing materials to be prominently displayed, and will be listed on the *Florida’s HEROs* website (www.fleceaward.org). The program may also be highlighted through social media at professional conferences and other community events.

In an effort to prevent childhood obesity, continued participation is contingent upon all criteria listed on the application form and maintaining the best practices. I understand and confirm that the information on this application is complete and accurate.
